\*Although Manton Pushrods has over 25 years of experience in re-working and shortening used pushrods, we cannot be held responsible for parts that are damaged during these procedures. When pushrods are used for an extended period of time, work hardening of the molecular structure will result. This is why we cannot be responsible for parts that are just flat worn out.

**Series 1 Mild Performance - 4130 Normalized - Non-Guide Plate Use**

PART #	Straight Pushrods	Racer	Jobber
101	5/16 x .065 Wall	8.85 each	7.37 each
